***15% OFF ANY PURCHASE!***

***\*Bring in this coupon to receive 15% off any order or use 15OFF on line.***

## Items not on our site

I have not put this on our site yet either.... I put some Cat Tail Picks into a cute hanging basket. I added a favorite Mustard Beeswax Battery Candle.

Then I added a little bird house at the base with some moss. Tied some homespun and realized I think I may be pushing Spring a little bit! ☺ But, it is cute wall hanging floral. Perfect for an area that you want to add a little candle glow to!

More items being added daily! We just received some great new rugs! I hope to have pictures on the site soon!!!!

As always, if you have ideas you wish we had...let us know!

Thank you everyone for your continued support!  
~Kim

*Not on our website yet...  
This is the only one I have made so far.*

*I cut out a wooden star, distressed it with black paint and stain. Then I attached it to the shutter with two old black tack nails.*

*Then I coffee stained some muslin. Painted Family and Friends on that. and wrapped around a twig, then used some wrapped wire to wrap the twig and some pip berries with a rusty tin star for the finishing touch! Hmm, I think this look like...  
Western, Primitive. ☺*
